Date

In some cases, the student's Committee may require the student to revise some or all of the essays in order to pass the Examination. The Committee will set specific deadlines in light of the amount of work expected and the student's other time commitments. Students who need to revise all or part of the Examination more than once may do so only by petitioning the Graduate Committee. A new version of this form should be submitted each time all or part of the exam is rewritten.
